

Thursday 18th July *(Note: Both Plenary Sessions will be recorded and available to attendees for 1 month post symposium)*

7.30 – 8.30	Symposium Registration				
8.30 – 9.00	Welcome – Jason Hu, PAMA President; Hara Trouli, Claire Cordeaux, H. Steven Sims (Symposium Co-chairs)				
9.00 – 10:00	DANCE KEYNOTE - Sharon Watson, MBE, DL – CEO and Principal, Northern School of Contemporary Dance				
10.00 – 10.30	COFFEE BREAK				
10.30 – 12.00	PLENARY 1 - MENTAL HEALTH		PLENARY 2 - VOICE		
10.30 – 10.45	Theory colliding with Practice: everyday decision-making and resilience building at a center devoted to performers' biopsychosocial health – Heather O'Donnell, MSc		The role of physiotherapy as part of a multidisciplinary team approach to vocal rehabilitation and care of the professional voice – Genevieve Tawiah, BSc		
10.45 – 11.00	Evaluating the impact of an artist-centered psychotherapy training elective in family medicine – Shelly-Anne Li, PhD		Return to Vocal Performance Following Vocal Fold Surgery – Lucian Sulica, MD		
			WORKSHOP	WORKSHOP	WORKSHOP
11.00 – 11.15	Personal experiences and formal diagnoses of mental health disorders among working musicians before and during career – Jeordie Shenton, MSc		Exploring the ethical value of the singing voice rehabilitation specialist in a multidisciplinary voice clinic team – Jenna Brown, MSc		
11.15 – 11.30	Group Vs. Solo Performers: Care Seeking Behaviors – Nathan Hollister, MD		Effects of Singing on Physical and Mental Symptoms and Quality of Life in Post COVID Patients – Anke Steinmetz, MD		
11.30 – 11.45	Leveraging Emotional Intelligence: A Cornerstone for Wellness and Peak Performance – Christoph Wagner, DMA		Perceived Impact of COVID-19 – Associated Breathlessness on Physical Aspects of Voice Quality in Singers - Grace Madueke, MBBS		
11.45 – 12.00	Exploring the impact of music educators' teaching approaches on performance anxiety management - Isabella Mazarolo, PhD				
12.00 – 12.30	Alice G. Brandfonbrener Young Investigator Award Sustained Musical Engagement through Increased Mental Health Literacy and Reduced Cognitive Load in Musicians – Julia Clearman, Psy.D, MA, BM				
			11.00 – 12.00 Sounds Good: Hearing Conservation Strategies and Risk Mitigation for Performing Artists - Finola Ryan, MBBS	11.00 – 12.00 Dissecting the arabesque for efficient, coordinated, and aesthetic movement – Moira McCormack, PhD	11.00 – 12.00 Finding the Balance Between Hip Mobility and Stability through Complementary Training with a Resistance Loop - Teal Darkenwald, MFA

Thursday Continued

12.30 – 13.30	PANEL: Improving the health of the music workforce– what can industry do? Jane Dyball, BA, Panel Chair; John Smith, MA; Peter Leathem, BA; Sriskantharajah Arun Castro, MD, MPH	
13.30 – 14.30	LUNCH & Travel to Field Visits	
15.00 – 17.00	Field Visits (Sign-up Required) <ul style="list-style-type: none"> • Performance Lab at the Royal College of Music • Royal Society of Musicians • Royal Albert Hall • Trinity Laban Conservatoire of Contemporary Dance • National Centre for Circus Arts • Health Suite at the Royal Ballet (Royal Opera House) 	
18.00	BAPAM Anniversary Reception – Royal College of Music	

Friday 19th July *(Note: Both Plenary Sessions will be recorded and available to attendees for 1 month post symposium)*

7.30 – 8.30	Registration Desk Open	Morning Meetings – Development Committee; Membership Committee; Small Business Network				
8.30 – 8.45	Announcements - Hara Trouli, Claire Cordeaux, H. Steven Sims (Symposium Co-chairs); UCL Faculty Dean Welcome					
8.45 – 10.00	Plenary 1 - MUSIC	Plenary 2 - DANCE				
8.45 – 9.00	The relationship between pain level, function, muscle strength and manual dexterity in violin players – Ebru Kaya Mutlu, PT	Health care seeking behavior of contemporary dance students – Larissa Plaatsman, MSc				

Friday Continued

9.00 – 9.15	Ultrasound findings of 184 upper-string players with PRMD – Daniel Chiung Jui Su, MD	Coming full circle: an insight into the process of designing and implementing a health and fitness support programme for dancers – Scott Sinclair, MSc		WORKSHOP 9.00 – 10.00 When research meets the real-world: Exploring scenarios, challenges and solutions for collaboration and culture change in research and performing arts settings – Liliana Araujo, PhD; Peter Garden, BA	WORKSHOP 9.00 – 10.00 Elastic Taping Techniques to Prevent and Manage Common Upper Extremity Performance Related Musician Injuries – Aviva Wolff, OT	WORKSHOP 9.00 – 10.00 Acquiring resilience through embracing vulnerability: Two key practices for recovering professional empowerment for performance – Mark Seton, PhD	WORKSHOP 9.00 – 10.00 Uses of AI in Performing Arts Health: A Workshop – Kris Chesky, PhD
9.15 - 9.30	Body Mapping-Informed Pedagogy in the Beginning String Classroom: A Quantitative Investigation - Noelle Rader, DMA	Self-reported health problems of 147 professional dancers from six opera houses or state theatres at the beginning of the season – Anja Hauschild, MD					
9.30 – 9.45	Group medical examination of professional pianists' hands by medical team in Japan – Aya Kanazuka, MD	Building an Ensemble: Integration of Performing Arts Medicine into Studio Culture – Daniel Scheid, PT, DPT; Holly Scheid, BM; Darcy Lei, DO					
9.45 – 10.00	When Hand Size and Piano Keyboard Don't Match: Medical, Professional, and Personal Implications – Barbara Lister-Sink, EdD	Functional performance tests in professional ballet dancers, gender specific differences – Tabea Arens, MSc					
10.00 – 10.15	COFFEE BREAK						
10.15 – 11.15	GUEST ARTIST SPEAKER - Dame Evelyn Glennie – 'In Conversation' with Dr Finola Ryan						
11.15 – 12.45	Plenary 1 - MUSIC	Plenary 2 - DANCE					
11.15 – 11.30	Beyond "Dystonia": A Grounded-Theory Study of Musicians with Embouchure Syndrome – Xenos Mason, MD	An Ounce of Prevention - How Targeted Sequential Corrective Exercises Can Potentially Prevent Back Injury in Dancers – Marilyn Miller, BA					

Friday Continued

	Plenary 1 – MUSIC continued	Plenary 2 - DANCE continued	POSTERS				
11.30 – 11.45	Can Musician's Focal Dystonia be prevented? Evidence from risk and triggering factors – Anna Détári, PhD	A multidisciplinary approach to low back pain in dancers – Rosa Pasculli, MD; Amanda Blackmon, PT, DPT; Emma Faulkner, PT, DPT	11.30 – 12.45 POSTER PARADE SESSION 1 General & Education				
11.45 – 12.00	Musician's Dystonia - a network disorder – Johanna Doll-Lee, MD, MMus	The Foot of the Matter: Metatarsalgia in Dancers – Kristina Quiroigico, MD; Jessalynn Adam, MD		WORKSHOP	WORKSHOP	WORKSHOP	
12.00 – 12.15	Neurophenomenology of Mindfulness Pedagogy to Rehabilitation of Two Musicians with Task-Specific Focal Dystonia – Sang-Hie Lee, PhD	Epidemiology of Injuries Reporting to Clinicians at 2021-2023 Breaking Competitions – Scott Lee, DPT		11.45 – 12.45	11.45 – 12.45	11.45 – 12.45	
12.15 – 12.30	Exploring Musicians' Focal Dystonia Awareness, and Performance-related Health Discourse Within the One-to-one Conservatoire Teaching Environment – A Comparative Survey Analysis – David Gardner, MA	Investigation Into the Kinematics of a Contemporary Dance Style Knee Drop Landing Out of a Sideways Leap, Before and After a Verbal Cueing Intervention – Laura Flanagan, MSc		Special considerations for management of performing artists presenting with dysphonia – Eleftheria Iliadou, MD	Managing Performance Anxiety: Helping Performers Reach their Artistic Potential – Leslie Bickle, BMus	Exploring U.S. Healthcare Data and its Application to Performing Arts Medicine Research – Randall Dick, MS; Lauren Elson, MD	
12.30 – 12.45	Musicians' Focal Dystonia: the role of the educator – Penelope Roskell, BMus						
12.45 – 13.45	LUNCH	Meetings – Education Committee; International Performing Arts Medicine (IPAM); YP Mentorship & Networking					
13.45 – 15.15	Plenary 1 - MUSIC	Plenary 2 - DANCE					
13.45 – 14.00	Patterns of Embouchure Muscle Activity in French Horn Players – Alan Watson, BSc	Strength to Strength: Using Principles of Contact Improvisation and Resistance Training with Physical Performers – Mike Doolan, MFA					

Friday Continued

			POSTERS				
14.00 – 14.15	The association between respiratory symptoms and instrument hygiene in wind players – Hans-Christian Jabusch, MD	Taping, padding, and shoe modifications techniques for dancers and performers – Emma Faulkner, DPT	14.00 – 15.15 POSTER PARADE SESSION 2 Music & Dance				
14.15 – 14.30	Body Awareness of the Orofacial Area in Wind and Brass Instrumentalists with and without orofacial problems. An Observational Study – Sarah Lesjak, MSc	Hop tests for Dancers - Standard assessment, interpretation and practical implication for training – Martha Richter, PT		WORKSHOP	WORKSHOP	WORKSHOP	WORKSHOP
14.30 – 14.45	“The Embouchure Project”: A Community-Based Advocacy, Education, and Research Organization – Gabriel Radford, BMus	Dance-specific Aerobic Fitness Test and lower-extremity injuries: could we predict injury risk? Annemiek Tiemens, MSc		14.15 – 15.15	14.15 – 15.15	14.15 – 15.15	14.15 – 15.15
14.45 – 15.00	Wind Instrumentalists and their Respiratory Muscles: An International Survey – Bronwen Ackermann, BSPT	Organizing Proprioception, Balance and Foot Loading in Dancers with Hypermobility and Spinal Asymmetry – Suzanne Martin, DPT		Performing Arts Medicine and Science Pedagogy: A dialogue on developing thoughtful and relevant curriculum - Jill Descoteaux, PhD; Catherine Haber, MSc, MAS, FHEA; Liliana Araújo, CPsychol, SFHEA; Hara Trouli, MD; Manuela Angioi, PhD, SFHEA, FIADMS	Trauma Informed Care of the Performing Artist – H. Steven Sims, MD	Warm-up and cool down for Musicians, with consideration for the Hypermobility Musician – Sarah Jane Carlton, PT, DPT, MFA; Susanne Callan-Harris PT, MS	Translating Research in Performing Arts Medicine: Effective Strategies for Applying Research to Practice - Shelly-Anne Li, PhD; J. Matt McCrary, PhD; Jeffrey Sabo, MA; Katerina Vardonikolaki, MD, PhD
15.00 – 15.15	Health and Wellness in the University Marching Band: A Systematic Review of the Professional Literature – Michael Thrasher, DMA	Associations Between Body Awareness, Body Trauma and Joint Hypermobility in the Context of Dance – Wendy Timmons, PhD					
15.15 – 15.30	COFFEE BREAK						
15.30 – 16.30	LEDERMAN LECTURE Movement Disorders in Musicians - Professor Mark Edwards						
16.30 – 17.30	PANEL: The Psychological Impact of Fame – Susan Raeburn, PhD, Panel Chair; Tamsin Embleton, MA; David Giles, PhD; Philip Selway	PANEL: Behind the Scenes: The Challenges of Providing Medical Coverage and Advocating for the Performing Arts Industry – Yein Lee, DO, Panel Chair; Stephen Fung, DO; Courtney Klimson; Niña Carmela R Tamayo, DO					

Friday Continued

18.00 – 19.15	Participants Recital
19.15 – 20.30	Welcome! PAMA Attendee Reception

Saturday 20th July *(Note: Both Plenary Sessions will be recorded and available to attendees for 1 month post symposium)*

7.30 – 8.30		Morning Meetings – Research Committee; Professional Standards and Behavior Committee			
8.00 – 8.30		Registration Desk Open			
8.30 – 8.35		Announcements			
8.35 – 8.45		Athletes And The Arts Update – Randy Dick			
8.45 – 10.00		Plenary 1 - MUSIC	Plenary 2 - DANCE		
8.45 – 9.00	Health education for tertiary music students: A longitudinal cohort study – Bridget Rennie-Salonen, PhD	Low Energy Availability is Associated with the Occurrence of Injury and the Development of Pain in Latin and Standard Dancers – Cornelia Hartinger-Scheiner, MSc			
9.00 – 9.15		Partners in Translation: developing health education resources for instrumental and vocal music teachers using a pragmatic formative process evaluation – Suzanne Wijisman, DMA	Relative Energy Deficiency in Dance (RED-D): a consensus method approach to REDs in dance – Matthew Wyon, PhD	WORKSHOPS 9.00 – 10.00 Are we missing the point? Trigger point referral patterns mimicking common cervical and upper extremity diagnoses in musicians – Amanda Blackmon, PT, DPT; Emma Faulkner, PT, DPT	WORKSHOPS 9.00 – 10.00 Evolving Integrative Wellness Programs: Combining Approaches to Foster Performer Health and Success – Matthew Tomatz, MA, LPC, LAC; James Brody, MM
9.15 - 9.30	Actioning a healthy settings approach for musicians' occupational health education – Alison Evans, PhD; Bridget Rennie-Salonen, PhD	Exploring an Intuitive Eating Framework for University Dancers: A Research-based Pilot Study – Jackson Haborak, BFA		WORKSHOPS 9.00 – 10.00 Vocal Zebras – Identify, Diagnose and Treat with Vocal Maneuvers, Multidisciplinary Collaboration and Singing Habilitation Techniques– Lucinda Halstead, MD; Deanna McBroom, MM; Jill Terhaar Lewis, DMA	

Saturday Continued

9.30 – 9.45	Take the leap! A whole-system and applied performance sciences approach to developing a healthy campus, promoting wellness, and optimizing performance in higher music education – Liliana Araujo, PhD; Isabelle Cossette, PhD	Conformity, Communication and the Influence of Social Media on Dancers and Eating Disorders – Dawn Smith-Theodore, MA		Workshop Continued	Workshop Continued	Workshop Continued

12.15	Symposium Adjourn	

POSTER PARADE - Friday 19th July
POSTER PARADE SESSION 1 (General & Education) [AM]

1. Establishing a Performing Arts Medicine Association in Spain: AMPAE – Isabel Artigues, MSc
2. Creation of the Association Française pour la Santé des Artistes de Performance - A journey to improve healthcare for French performing artists – Sébastien Martin
3. A new Performing Arts Health Hub at the Paris Regional Conservatoire: construction, adaption, feedbacks – Céleste Rousseau, MSc
4. Medical professionals working with technique pedagogues: he we do it – Andrew Mark Phillips, MA
5. Music Physiology & Musicians' Medicine at German Universities of Music - New Concepts in Education and Training – Claudia Spahn, PhD
6. Organizational structure of a local interdisciplinary performing arts medical organization – Liz Corwin, DPT
7. An Educational Duet: Harmonizing Musicians' Knowledge and Residents' Training in Performing Arts Medicine – Frances Ann B. Carlos MD MPM
8. Post-Secondary Music Students' Work and Health: An Institutional Ethnography Protocol – Mona Oikarinen, MScR
9. Find the focus: Attentional focus strategies of music university students in different practice phases – Jesper Hohagen, PhD
10. Promoting Wellness and Performance in Chamber Music through Team Coaching – Christoph Wagner, DMA
11. Pain Neuroscience Education - An important part of a modern and evidence-based management in performing artists' health – Dirk Möller, PhD
12. Your teacher may say you have to practice in a healthy way and take many breaks. How do you know when you do it right?" - Norwegian music students' perceptions and experiences of challenges and resources for health – Grete Ege, PT, MSc
13. Prevalence and associated factors of performance-related pain among music students versus professional musicians: a multicenter study using a validated tool – Ana Zão, MD

POSTER PARADE SESSION 2 (Music & Dance) [PM]

1. Is Deltoid Muscle Oxygenation and Perfusion Related to Reaction Time in Musicians Playing Stringed Instruments? A Pilot Study – Sule Kecelioglu, MSc
2. Developing and Validating a Teaching and Learning Tool to Facilitate the Acquisition of Healthy Postural Habits and Body Technique by Violin and Viola Students: Synthesis of Research and Results – Julie Ferland-Gagnon, PhD
3. Measurement of Violinist's Performance Relating Scapular Dyskinesia using 3-D scanner: a Pilot Study – Chang-Hyung Lee, MD
4. Characterizing Occupational Health Problems among Guitarists – Nabeel Zuhdi, PhD
5. Effects of a short body-oriented intervention on arm and shoulder muscle tension during instrumental playing – Manfred Nusseck, PhD
6. Occupational health problems among violinists – Anagha Kapsi, BM
7. A Kinematic Motion Analysis Protocol Supporting the Clinical Assessment of Playing-Related Musculoskeletal Disorders in Drummers – David Snowdon, MSc
8. Returning to Dance after a Pseudo-Jones Fracture: A Case Study – Ella Otto, AT
9. Non-traumatic Rib Fracture in Ballet – Juliet Peck, MBBS
10. Chronic exertional compartment syndrome (ECS) in a professional dancer: a case study – Carina Nasrallah, MS
11. The impact of a conditioning program on ankle stability and lower leg endurance in high school dance teams – Alexandra Pooley, MFA
12. Discussing variations of pole modes (spinning or static) to inform physiotherapy-based management of shoulder injury prevalence in pole fitness – Jane Cole, MSc
13. Dance-Related Injuries in Adolescents Before and After the COVID-19 Pandemic – Juan Ventura, MS
14. Contact improvisation dancers' experiences of risk in a COVID-19 pandemic context – Vanessa Reiser, MSc
15. Relationship between Eating Attitudes Test Scores and the COVID-19 Pandemic in First-Year University Dancers – Lauren McIntyre, ATC
16. Circus Artists' Access to Medicine: Understanding where artists seek care – Nathan Hollister, MD

POSTER PARADE - Saturday 20th July
POSTER PARADE SESSION 3 (Mental Health & Voice) [AM]

1. Mental disorders and personality styles among professional musicians - two systematic reviews – Isabel Fernholz, PhD
2. Assessing Student Performers' Risk for Depression in the Touring Environment – Jonah Schmitz, MSc
3. "It was always about perfectionist performance" Relationship between life satisfaction and health impairment in playing or singing of university music students – Anna Immerz, PhD
4. Positive and Negative Mental Health among Musicians: A Scoping Review – Giulia Ripani, PhD
5. Performance anxiety in classical music students: prevalence and prevention – Larissa Plaatsman, MSc
6. MPA treatment en masse: a case for a group therapy treatment of music performance anxiety in college musicians – Steven Wasilczuk, BMusEd
7. Talking About Tension: Distinguishing Primary Muscle Tension Dysphonia from Compensatory Hyperfunction in Singers in Training – Theodora Nestorova, PhD
8. The Singing Voice Rehabilitation Specialist: a singing teacher with extra steps, or a highly specialised professional? Jenevora Williams, PhD
9. Pulmonary function analysis and differences among FACH classified opera singers – Ricardo Fuentes-Saavedra
10. Should Voice Rehabilitation Specialists Professionalise In The UK? Jenna Brown, MSc
11. Unveiling the Thyroid and Singing Voice Connection – Sara Brites, MMus
12. A vocal manual therapy approach to managing laryngopharyngeal reflux in singers – Lydia Flock, MA
13. Your Happy Voice: Navigating Allergy Season by Changing the Way You Breathe – Kate Cubley, MA
14. Relational Acupuncture for Voice Professionals: Fusing Ancient Tradition with Modern Science – Stephen King

POSTER PARADE SESSION 4 (Music & Dance) [PM]

1. Injury Awareness and Prevention Workshops - Do they have an impact? Nicola Goldsmith, BSc
2. The Use of Osteopathic Manipulative Treatment for Chronic Pain in Musicians – Rebecca Franklin, MS
3. Musicians' Headache: Neck pain and hearing problems as predictors – Irem Eliassen, MSc
4. Recognizing and Addressing Joint Hypermobility in Piano Students: From a Teacher's Perspective – Barbara Lister-Sink, EdD
5. The lived experiences of instrumental musicians with Hypermobility Spectrum Disorder – Tamlyn Harker, BMus
6. Does Using Both Hands for Similar or Different Tasks While Playing an Instrument Affect Simple Reaction Time and Finger Dexterity? A Pilot Study – Selnur Narin Aral, PhD
7. Using platelet-rich plasma to treat embouchure dysfunction, a case series – Mei-Chen Yeh, MD
8. Impact of Medical Care in Wind and Brass Musicians – Devin Reddy, MMus
9. Can foot loading intervention influence the spinal stabilization of a pre-professional female cellist with a diagnosis of adolescent idiopathic scoliosis? A case study presentation – Suzanne Martin, DPT
10. Strengthening Program for Musical Theater Performers – Maeve Talbot, PT, DPT
11. Factors Affecting Injury Risk in Adolescent Ballet Dancers: A Systematic Review – Rama Bhardwaj, MSc
12. Well in Dance - a collaboration between arts and science education in pre-vocational dancers. – Sofia Ornellas Pinto, BSc
13. Ballerina Athlete Low-Energy, Nutritional, and Clinical Evaluation (BALANCE) – Stephen Fung, DO
